Hurry...space is limited!

A full day learning experience for kids ages 5-12, designed to create critical thinkers and exercise creative minds. The camp incorporates STEAM (science, technology, engineering, the Arts, mathematics) and rigorous academic instruction that is infused with **FUN, ENGAGING, hands-on ENRICHMENT** activities.

3 Weeks of Fun!

Week One
June 5-9

Extreme Science
Enrichment Activities
Academic Skill Building

Week Two
June 12-16

Engineering Wonders
Enrichment Activities
Academic Skill Building

Week Three
June 19-23

Nature Labs
Enrichment Activities
Academic Skill Building

Geek Squad

Where kids learn the basics of
becoming an
entrepreneur!

Field Trips & More!

Week One: **Extreme SCIENCE**

During extreme science week, we will offer an incredible collection of projects and experiments that will amuse and amaze your scientist! By being involved with several hands-on activities your child will explore various scientific ideas that play a role in every-day life.

Sample Projects: Slime creations, bouncing balls, rock candy, making ice cream

Week Two: **Engineering Wonders**

Campers will be immersed into constructing and building. Campers will take home several different projects during the week.

Sample Projects: Avalanche protection system, crash test cars, cable tie truss bridges

Week Three: **Nature Labs**

Campers will be involved in activities that connect science to nature.

Sample Projects: G.A.B.I.E Agriculture interactive bus, nature scavenger hunt, seed jar science

ACADEMIC SKILL BUILDING

During this component of the day, students will work on grade level academic standards related to the areas of reading comprehension & math problem solving.

Geek Squad
